More than just a meal...

September 2014

Menus: The Difference Between Monthly and Choice

As a convenience, Horizons Meals On Wheels distributes white menus on a monthly basis so that clients can know what to expect for a meal on a certain day. The purpose of this menu is to serve exclusively as a reference tool and not a choice menu. Please do not circle the white menu and send it back to the office, otherwise it will be discarded without being looked at.

You should have received a gold menu at some point allowing you to decide which entrée you’d like. If you don’t recall ever filling one out, please let us know and we’ll be able to tell you. We also understand that you may not care for your original choices, so you can also request that another gold menu be sent. Remember, the choices repeat themselves every eight weeks. For example, if you asked for Oven Fried Chicken on September 12, you’ll receive it again on November 7.

As always, feel free to contact us should you have any questions. We thank you for your help in ensuring that you get the food you asked for!

SNEAK PREVIEWS

Fall is fast approaching, which means winter isn’t too far behind, so be sure to look here in the months ahead as we let you know about what’s headed your way!

For starters, we’ll be sending out emergency frozen meals to all home-delivered noon clients at the beginning of October should the office ever have to close due to inclement weather. We’ll also give you reminders on where to find out about Meals On Wheels-specific cancellations.

In addition, we’re in the process of finalizing our holiday plans, and will let you know about how you can take part in the annual Thanksgiving dinner, and Santa For Seniors gift giveaway.

It’s all ahead this fall at Horizons Meals On Wheels!

Weather Winter’s Worst with Assistance from HACAP

The Weatherization Assistance Program works to reduce personal utility costs by improving the housing stock of low-income individuals and families. The program provides services to people on fixed incomes (the elderly and people with disability) and children living in low-wage households.

Program eligibility is determined by income and household utility usage. Individuals that apply to the Low-Income Energy Assistant Program (LiHeap) have their cases referred to the weatherization program for eligibility determination. Weatherization is a program which allows you to apply for these services year round.

If you have any questions about the Weatherization Program, please contact HACAP at 1-(800) 332-5289.
